

NEW

- ✓ **GRADE 5 PERFORMANCE**
- ✓ **SELECTIVELY HARDENED**

ITW Buildex

TEKS SELECT™

IT'S JUST BETTER!

LOWER HARDNESS

(HRC 28-34)
load-bearing section provides ductility

HIGHER HARDNESS

(HRC 52 MIN)
drill point and lead threads for reliable drilling

TEKS SELECT™

GRADE 5 PERFORMANCE
and **SELECTIVELY HARDENED FEATURES**

- Improved resistance to shear failure due to wind and other loads requiring ductility.
- Strength and ductility maintained when attaching similar or dissimilar metals.
- Resists stress corrosion cracking/hydrogen embrittlement.
- Less fastener maintenance required over the years.

Visit www.itwbuildex.com for more information on these cost saving features that outperform the competition:

- > Twice as Fast as Nuts and Bolts
- > Climaseal ACR Coating
- > A Drill Point that Starts Quicker
- > A Self-Tapping Thread Design that is More Efficient
